Subject: West Lake Landfill in Maryland Heights, MO

The Residents living within close proximity to the West Lake Landfill need the following:

- 1) Immediate permanent relocation for homeowners and renting families that want to move that are located within one mile of the West Lake Landfill fence line, paid for by the landfill owner, Republic Services.
- 2) Provide fair market value assurance for homeowners living within five miles of the West Lake Landfill, (for five years or until the fire is out, whichever is longer), paid for by the landfill owner, Republic Services.
- 3) 3) Authorize the Army Corps of Engineers FUSRAP to take over control of the landfill and author the remedial action plan. They are the most qualified government agency to provide a safe and permanent solution for the radioactive wastes, offer better protection for workers, and have a program for health care assistance for the public.
